# Lyle M. Gordon

Department of Materials Science and Engineering Northwestern University 2220 Campus Drive Evanston, IL. 60208 USA ☎ office: 847-491-3584 ⊠: lyle@lylegordon.ca URL: http://lylegordon.ca

### Areas of Specialization

Atom probe tomography • Organic-inorganic interfaces • Biomineralization

### Education

2008- PhD Candidate in Materials Science and Engineering

Northwestern University. Evanston, IL. Expected 2013

THESIS: Buried Organic-Inorganic Interfaces in Biological Minerals

ADVISOR: Dr. Derk Joester

2008 BASc with Honours in Materials Science and Engineering

University of Toronto, Toronto, ON.

## Research Experience

2008- Biomineral Engineering Group, Materials Science and Engineering, Northwestern University.

ADVISOR: Dr. Derk Joester

Characterization of nanoscale buried organic-inorganic interfaces in biological minerals with atom-

probe tomography.

2007-2008 Hybrid Materials Group, Materials Science and Engineering, University of Toronto.

ADVISOR: Dr. Glenn D. Hibbard

Developed and characterized a sub-millimetre scale periodic cellular material fabricated using rapid-prototyping and electrodeposition of high-strength nanocrystalline nickel.

2004-2008 Concrete Canoe Team, Civil Engineering, University of Toronto.

ADVISOR: Dr. Kim D. Pressnail

Coordinated the development, testing and implementation of a carbon fiber reinforced polymer modified lightweight aggregate concrete composite for use in the construction of a racing canoe.

2007 Orthopaedic Biomechanics Lab, Sunnybrook Health Sciences Centre.

ADVISOR: Dr. Cari M. Whyne.

Characterized the mechanical and biological properties of a elastin-hyaluronan composite hydrogel for tissue engineering of the nucleus pulposus.

2006 Orthopaedic Biomechanics Lab, Sunnybrook Health Sciences Centre.

ADVISOR: Dr. Cari M. Whyne.

Developed and validated a finite element model of pelvic lateral compression fracture stability.

2005 Orthopaedic Biomechanics Lab, Sunnybrook Health Sciences Centre.

ADVISOR: Dr. Cari M. Whyne.

Developed a 3D atlas-based method to automate segmentation of metastatic vertebrae on X-ray computed tomography scans.

## **Professional Experience**

PreScouter, Evanston, IL.

TECHNOLOGY CONSULTANT

Led a consulting project to improve the texture of individually quick frozen vegetables with minimal process attributes for one of the largest private American food companies. Authored report outlining highest-potential technological and scientifical solutions to client and provided expert analysis.

## Teaching

Biominerals: Hierarchical Architecture and Function, Northwestern University.

Lecture on the structure and function of the chiton tooth.

Introduction to Materials Science, Northwestern University.

Laboratory assistant.

2009 Introduction to Materials Science, Northwestern University.

Teaching and laboratory assistant.

2009 Introduction to Materials Science, Northwestern University.

Teaching and laboratory assistant.

## Grants, Honours & Fellowships

2012-2013 Terminal Year Fellowship. McCormick School of Engineering, Northwestern University.

2010-2012 **Postgraduate Scholarship, Doctorate**. National Science and Engineering Research Council of Canada.

2009-2010 Postgraduate Scholarship Extension, Masters. National Science and Engineering Research Council

of Canada.

2008-2009 Appointed University Scholar. The Graduate School, Northwestern University.

2008 Walter P. Murphy Fellowship. Department of Materials Science and Engineering, Northwestern

University.

2008-2009 **Postgraduate Scholarship, Masters**. National Science and Engineering Research Council of Canada.

2008 Alexander Graham Bell Canada Graduate Scholarship, Masters. National Science and Engineering

Research Council of Canada, declined.

2008 Ontario Graduate Scholarship, Masters. Ontario Graduate Scholarship Program, declined.

Stanford Graduate Fellowship. Stanford University, declined.

Dean's Honour List. Faculty of Applied Science and Engineering, University of Toronto. (4 years)

2007-2008 Stelco Scholarship. Department of Materials Science and Engineering, University of Toronto.

2007 Undergraduate Student Research Award. National Science and Engineering Research Council of

Canada.

2005-2007 Scholarship. Department of Materials Science and Engineering, University of Toronto. (2 years)

2006 Undergraduate Student Research Award. National Science and Engineering Research Council of

Canada.

Research Summer Studentship Award. Sunnybrook Health Science Centre.

2004 Entrance Scholarship. Department of Materials Science and Engineering, University of Toronto.

### **Awards**

- 2013 Microscopy & Microanalysis Meeting Award, Microanalysis Society.
- Finalist. Materials Research Society Science as Art Competition.
- Image of Distinction. Nikon Small World Photomicrography Competition. [url] [IMAGE]
- First Place: Technical Report. Canadian National Concrete Canoe Competition, Halifax, NS.
- First Place: Technical Presentation. Canadian National Concrete Canoe Competition, Kingston, ON.

### Professional Service & Extracurriculars

- Symposium Assistant, Materials Research Society Spring Meeting. San Francisco, CA.
- Science Fair Judge. Chicago Public Schools, Area 9.
- Science Fair Judge. Chicago Public Schools, Area 4.
- 2009 Student-Faculty Representative, Materials Science Student Association, Northwestern University.
- 2007-2008 Project manager, University of Toronto Concrete Canoe Team.
- Tutored high-school level physics and math.
- 2006-2008 Mentored first year Materials Science and Engineering students, University of Toronto.
- 2005-2007 Head of concrete mix and composite design, University of Toronto Concrete Canoe Team.
- Vice-chair coordinating orientation week and distributing financial aid for one thousand incoming University of Toronto engineering students.
- Solo Photography Exhibition, Albert White Gallery. Toronto, ON.

# **Professional Societies**

American Association for the Advancement of Science, American Physical Society, Materials Research Society, Microscopy Society of America.
